

YULIA CARVALHO

Data Analyst | Molecular Biologist

+351 917784870 • yuliya.carvalho@gmail.com • <https://www.linkedin.com/in/yulia-carvalho> • Lisbon, Portugal

Summary

Driven Data Analyst with a background in molecular biology and 15 years of international research and laboratory management experience. Hands on experience in SQL, Python, Power BI, Looker Studio, R and end-to-end analytics workflows. I combine scientific rigor with devotion for transforming complex data into actionable insights and impactful visualizations. Fluent in English, Portuguese, and Russian; thrive in collaborative and multicultural settings. Seeking analyst roles to apply analytical skills and support effective, data-informed decision-making

Certifications

PRINCE2® Project Management Foundation Certification — AXELOS Global Best Practice, January 2024

Data Analytics Professional Certificate v.3 — Google, January 2026

Training / Courses

Data Analytics Intensive Bootcamp — Le Wagon, November 2025

Skills

Languages: SQL • Python • R

BI and Data Viz: Power BI • Looker Studio

Data Modeling and ELT/ETL: Fivetran • dbt

Automation and Tracking: Zapier • GTM • HubSpot

Business Analytics: KPI design • Performance tracking

Version Control: GitHub

Spreadsheets: Advanced Google Sheets • Excel

Soft Skills:

Analytical Thinking • Structured Problem Solving • Attention to Detail and Data Accuracy • Ownership and Accountability • Time and Priority Management • Learning Agility and Adaptability • Team Collaboration

Projects

E-Commerce Operations Analysis: Customer Retention, Route Performance & Seller Risk Assessment Portugal
<https://www.kaggle.com/code/yuliyacarvalho/olist-retention-logistics-risk> 01/2026

Capstone Project – Google Data Analytics Certificate

- Delivered end-to-end, business-focused analysis using the Olist Brazilian e-commerce dataset (~100K orders)
- Designed and answered 18 interconnected business questions covering growth, customer retention, delivery performance, logistics, and seller risk
- Demonstrated strong proficiency in SQL, R, statistical analysis and data visualization, translating complex data into clear, actionable insights

Biodiversity Loss in Europe Portugal
11/2025

Team Project – Le Wagon Data Analytics Bootcamp

- Analyzed biodiversity patterns across Europe to assess the impact of terrestrial and marine protected areas on conservation outcomes.
- Integrated and assessed environmental and land-use datasets using Python (Pandas, NumPy) and SQL (BigQuery), exploring relationships between protected area coverage, land use distribution, and the Biodiversity Intactness Index.
- Delivered clear visualizations (Looker Studio) and a data-driven narrative to communicate insights on conservation effectiveness.

Experience

GIMM/ Mission Lab

Lisbon, Portugal

Laboratory Manager

03/2023 - 02/2025

Oversaw laboratory quality assurance, workflow optimization, and compliance across all operations

- Developed and implemented SOPs, managed equipment and suppliers, ensured safety protocol adherence
- Coordinated biological sample logistics and laboratory operations for a colorectal cancer clinical study, contributing to the design and implementation of end-to-end study workflows, including operational, logistical, and IT-platform processes
- Conducted diagnostic testing and analysis, delivering clear, reliable and actionable results
- Introduced new methodologies, improved process efficiency, and trained incoming team members

IMM

Lisbon, Portugal

COVID-19 Diagnostic Testing Specialist

11/2020 - 02/2023

COVID-19 Molecular Diagnostic Unit

- Managed planning, coordination, and execution of 200K+ COVID-19 diagnostic tests under enhanced BSL-II conditions, ensuring strict adherence to safety protocols
- Performed qPCR result analysis and prepared detailed reports for patients and public health entities (~10K SINAVE reports)
- Directed sample prioritization, patient coordination, optimizing laboratory workflow and turnaround times

IMM

Lisbon, Portugal

Research Fellow

10/2018 - 10/2020

Vascular Morphogenesis Laboratory

- Oversaw lab management & operations, provided experimental support

Institute of Cardiovascular Regeneration, Goethe University

Frankfurt, Germany

Scientific Researcher

11/2012 - 01/2017

Center for Molecular Medicine

- Worked on projects focused on identifying and characterizing long noncoding RNAs in mouse stem cells and murine heart tissue, with emphasis on histone H3-bound lncRNAs, positional conservation, and tissue-specific expression and function

Max Planck Institute for Heart and Lung Research

Bad Nauheim, Germany

Student Researcher

11/2011 - 10/2012

Department of Cardiac Development and Remodeling

- Conducted research on lncRNAs in embryonic stem cells, performing global transcriptome analysis during cardiac differentiation

Probiomed SA. de C.V.

Tenancingo, Mexico

R&D Technician

11/2010 - 08/2011

NL Biotechnologies LLC

- Recombinant viral hepatitis vaccine development

Education

Kazan Federal University

Kazan, Russia

MSc Molecular Biology/Microbiology

09/2005 - 07/2010

Kazan Federal University

Kazan, Russia

Diploma Psychology

2008 - 2010

Awards

Future Leaders Exchange (FLEX) Scholarship Program

08/2004 - 05/2005

Finalist of 2004 FLEX Scholarship Program

Lake Gibson High School, Lakeland, FL, USA

Certificate of Academic Excellence

Excellence in Learning

06/2005

Awarded a medal for excellence in learning (GPA 5.0/5.0)

Issued by Gymnasium 19, Kazan, Russia

Research Grant

10/2009 - 11/2009

Awarded a short-term Research Grant at Justus-Liebig-Universität Giessen, Germany)

Volunteering

IMM COVID-19 Taskforce

Virus Inactivation Team

03/2020 - 07/2020

Supported the national COVID-19 response by working in the Virus Inactivation Team at a Taskforce, helping Portuguese health authorities process large volumes of diagnostic samples safely and efficiently

IMM

Green Team

01/2019 - 10/2020

Organized and implemented sustainability initiatives aimed at reducing plastic consumption in laboratory environments
